Design Audit

Document: Refined Design Opportunities For Reepl Chrome Extension

Opportunity 1: UX Friction - Posting An Message Comments

- **Current Issue:**
  - The Absence Of A Microphone Option Restricts Users Who Rely On Voice Input, Limiting Accessibility For Individuals With Disabilities Or Those Multitasking.
  - Users Cannot Adjust Font Size Or Colors, Reducing Accessibility For Those With Visual Impairments And Hindering Personalized Content Creation.
- **Proposed Solution:**
  - Implement A Microphone Icon To Enable Voice Input, Allowing Users To Dictate Posts For Improved Accessibility And Convenience.
  - Include Options For Adjusting Font Size And Selecting Text Colors To Cater To Users' Visual Preferences And Ensure Content Aligns With Branding Needs.
- **Benefits:**
  - **Enhanced Accessibility:**
    - Voice Input Empowers Users With Disabilities Or Those Multitasking To Create Posts Seamlessly, Fostering Inclusivity.
  - **Improved User Experience:**
    - Customizable Font Sizes And Colors Enhance Readability And Personalization, Creating Visually Appealing And Engaging Content.

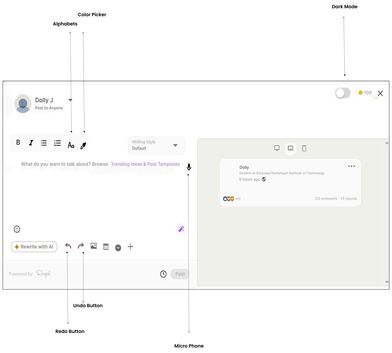
Improved Design



- **Current Issue:**
  - Lack Of Accessible Help & Support
    - Problem 1: New Users Struggle To Understand The Platform Or Troubleshoot Issues Like Integrating Their OpenAI API Key, Using Prompts, Or Engaging On LinkedIn.
    - Impact: Without Readily Available Help & Support Options, Users Feel Stuck, Frustrated, And More Likely To Abandon The Platform.
  - Users Miss Important Notifications
    - Problem 2: Users Do Not Receive Timely Updates Or Reminders About Key Actions, Like Earned Rewards, Pending Tasks, Or Recommended LinkedIn Insights.
    - Impact: This Results In Missed Opportunities For Engagement And A Lack Of Awareness About Progress Or Features.

- **Proposed Solution:**
  Solution 1:
  Add A "Help & Support" Button In The Sidebar That Includes FAQs, Tutorials, And Access To Customer Support.
  Solution 2:
  Add A "Notifications" Option In The Sidebar To Display Earned Rewards, Reminders, And Platform Updates For Quick Acess.
  - **Help & Support**
    - Why Now: Assists Users With Onboarding Or Troubleshooting, Especially During The Free Trial Phase.
    - Use Case: Guides Users With FAQs, Tutorials, Or Customer Support Chat.

  Notifications
    - Why Mid-Term: Initially, Users May Not Need Alerts, But As Their Activity Increases, Timely Reminders Will Add Value.
    - Use Case: Notify Users About Earned Rewards, New LinkedIn Insights, Or Recommended Actions.

- **Benefits:**
  - **By Integrating Help & Support And Notifications Into The Reepl Extension Sidebar, The App Becomes:**
    i. User-Friendly: Simplifies Troubleshooting And Feature Discovery.
    ii. Engaging: Keeps Users Informed And Motivated With Timely Updates.
    iii. Effective: Enhances Onboarding Completion And Feature Utilization, Reducing Churn Rates.
